

### Baton Rouge, LA Sonic Image Modernization

#### Project Summary:

FFS provided this renovation building package for the Sonic Restaurant in Baton Rouge, LA. FFS worked with Dream Weaver Construction. For this renovation, FFS supplied the **StoneWal** panels in Boral Stone, Southwest Blend and **EnduraWal** Panels were done in a worm trail texture, Buckskin to update the look of this existing restaurant.

#### Meet Owners Goals, Values and/or Expectations:

StoneWal gives you the look of traditional masonry without the hassle of expensive lintels, heavy foundations and structural supports, Why? Because StoneWal weighs 12lbs per square foot when used as individual panels. StoneWal panels increase your building income and reduce maintenance expense.

#### FFS PRODUCTS USED:

EnduraWal  
StoneWal

#### CLIENT:

Sonic
